

Mold Specification Reference Table

For customer selection, size confirmation, and pre-order communication (Unit: m)

Surface Type	Mold Size	Size with Strips	Mold Code	Surface
Polished	1.27×1.87	1.22×1.82	Q1	Glossy
Polished	1.30×1.90	1.25×1.85	Q	Glossy
Frosted	1.30×1.90	1.25×1.85	PPQ	Double-sided Frosted
Polished	1.32×1.93	1.27×1.88	Q3	Glossy
Polished	1.33×1.88	1.28×1.83	Q4	Glossy
Polished	1.08×2.08	1.03×2.03	T1	Glossy
Polished	1.10×2.10	1.05×2.05	T0	Glossy
Polished	1.11×2.11	1.06×2.06	T	Glossy
Polished	1.27×2.48	1.22×2.43	L-Large	Glossy
Polished	1.28×2.49	1.23×2.44	L4	Glossy
Polished	1.30×2.50	1.25×2.45	L0	Glossy
Frosted	1.30×2.50	1.25×2.45	PLO	Single-sided Frosted
Frosted	1.30×2.50	1.25×2.45	PPLO	Double-sided Frosted
Polished	1.32×2.54	1.27×2.49	L1	Glossy
Frosted	1.32×2.54	1.27×2.49	PL1	Single-sided Frosted
Polished	1.32×2.54	1.22×2.44	L1	Fluted
Polished	1.36×2.58	1.31×2.53	L2	Glossy
Polished	1.40×2.62	1.35×2.57	L3	Glossy
Polished	1.40×2.10	1.35×2.05	Q5	Glossy
Polished	1.93×2.54	1.88×2.49	L5	Glossy
Polished	1.34×2.56	1.29×2.51	L6	Glossy
Polished	1.70×2.65	1.65×2.60	Y	Glossy
Polished	1.60×3.10	1.55×3.05	N	Glossy
Polished	1.75×3.15	1.70×3.10	N1	Glossy
Polished	2.10×3.10	2.05×3.05	M	Glossy
Frosted	2.10×3.10	2.05×3.05	PM	Single-sided Frosted
Frosted	2.10×3.10	2.05×3.05	PPM	Double-sided Frosted
Polished	2.15×3.15	2.10×3.10	M2	Glossy

General Notes

- The "Size with Strips" shown in this table refers to the production mold size. Unless otherwise confirmed, customer communication should default to the size with strips.
- Standard minimum thickness starts from 1.8 mm. As sheet thickness increases, the actual net size / usable area will decrease accordingly.
- For Q, L0 and M molds, the maximum thickness for frosted colored sheets is 25 mm, and for clear sheets is 25 mm. For clear sheets with square strips, the maximum thickness can reach 30 mm.

Edge Trimming (Strip Removal) Notes

- If edge trimming (strip removal) is required, please confirm with our sales team before placing the order.
- Different sheet thicknesses correspond to different production molds. We will select the appropriate mold based on thickness, then remove the strips after forming.
- Therefore, the same finished net size may correspond to different production molds at different thicknesses. For example, for a finished net size of 1220×2440 mm, we may use either the L1 or L2 mold depending on thickness, and then remove the strips after production.
- Final producible size, tolerance and delivery method shall be subject to the confirmed order requirements and sales communication.
